PROFILE

Currently pursuing B.Tech in Computer Science Engineering with hands-on experience developing full-stack applications using Java, Spring Boot, React.js, MySQL, MongoDB, and Microservices. Experienced in designing REST APIs, implementing JWT authentication and role-based access control, and building database-driven applications with Spring Data JPA. Foundation in Data Structures and Algorithms, Object-Oriented Programming, DBMS, and Problem Solving. Seeking an entry-level Java Full Stack Developer or Software Engineer role.

SKILLS

Programming Languages: Java, C++

Backend: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Spring AOP, Hibernate, JDBC, Microservices

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Databases: MySQL, PostgreSQL

APIs & Architecture: REST APIs, RESTful API Design, JWT Authentication, Role-Based Access Control, MVC Architecture, API Gateway, OpenFeign, Eureka Service Discovery

Tools & Deployment: GitHub, Postman, Render, Vercel, IntelliJ IDEA

Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Problem Solving

PROJECTS

CodePilot AI

2026

AI-Powered Developer Assistant

- Built and deployed a full-stack AI developer assistant using React, TypeScript, and Spring Boot with Gemini API integration.
- Implemented features for code review, bug detection, SQL generation, documentation, email generation, and coding assistance.
- Developed REST APIs with CORS support and rendered Markdown and syntax-highlighted responses for improved usability.
- Deployed the production application using Render and GitHub.

Tech Stack: React, TypeScript, Spring Boot, Gemini API, REST APIs, CORS, Render, GitHub

Quiz Assessment Platform

2024

Microservices-Based Online Assessment Platform

- Developed a full-stack quiz platform with separate Admin and User modules, quiz management, automatic scoring, and result tracking.
- Implemented JWT authentication and role-based authorization to secure Admin and User workflows.
- Integrated Eureka Service Discovery, API Gateway, and OpenFeign for microservices communication and service management.
- Built a responsive React.js and Tailwind CSS interface with PostgreSQL database integration and tested the complete application locally.

Tech Stack: Java, Spring Boot, Microservices, React.js, Tailwind CSS, PostgreSQL, JWT, Eureka, API Gateway, OpenFeign

Musify

2024

Full-Stack Music Streaming Application

- Developed a full-stack music streaming application with separate Admin and User panels using React.js and Spring Boot.
- Implemented Spring Security with JWT-based authentication and role-based access control to secure application features.
- Used Spring Data JPA and MySQL to manage users, songs, albums, playlists, and related application data.
- Built RESTful APIs enabling administrators to upload and manage songs and albums while users stream music and maintain playlists.

Tech Stack: Java, Spring Boot, Spring Security, Spring Data JPA, React.js, MySQL, REST APIs

CERTIFICATIONS

Java & Spring Boot Certification — Udemy

Data Structures & Algorithms Certification — Apna College

Java Programming Intern — IndusAi Solutions

EDUCATION

B.Tech, Computer Science & Engineering — Mahakal Institute of Technology, Ujjain

Currently Pursuing | 2023–2027

Class XII (Higher Secondary) — Inventure Kids Academy High Secondary School, Susner (85%)

2023

Class X (Secondary) — Inventure Kids Academy High Secondary School, Susner (91%)

2021
